Phase 2 - Story Prose

Step 6   Fill out the Prose Prompt Template

Open **the Google Doc** and do one of the following:
1. File > Make a copy
2. File > Download > Microsoft Word (.docx)

Once you have your own copy, fill out the first two sections in the template.

Then, copy and paste the output from **Step 5** into the Branching Narrative Outline section in the template.

Step 7   Export the document to PDF

Do one of the following:
1. **If you have a Google Doc:** File > Download > PDF Document (.pdf)
2. **If you have a Microsoft Word document:** File > Save As > Set File Format to PDF > Save

Once you have a PDF, close all documents.

Step 8   Add PDF to ChatGPT

Open a new chat in **ChatGPT** and do one of the following:
1. Drag and drop the PDF over the text box
2. Select the **+** button in the text box > Upload File

Step 9   Enter the Prose Prompt

Do the following:
1. Change the number of words (if needed)
2. Copy the Prose Prompt
3. Paste the prompt into the text box in **ChatGPT**
4. Hit enter

Step 10   Check the output

Open a new project in **Twine** and do the following:
1. Edit, refine and proofread one chapter at a time in **ChatGPT**
2. When done, copy and paste the chapter into a new passage in **Twine**
3. Create links for each choice in the passage.
4. Type the name of the next chapter (e.g., '1B') or type 'Continue' into **ChatGPT**
5. Hit enter
6. Repeat until all the chapters appear in **Twine**
7. In **Twine**, create an HTML file by going to Build > Publish to file > Save
